10. (Internal Use Only - GLC) LIAISON Talked with Paul Daly, FBI, about the Senate Select Committee on Intelligence's request that we appear before the Committee today at 3:00 p.m. to provide a briefing on the [redacted] case. I brought Daly up-to-date on the meeting which John Waller, IG, and I had will Bill Miller, Staff Director of the Committee, and Earl Eisenhower, Minority Staff Director of the Committee, and he mentioned that the FBI had also briefed these staffers on the [redacted] case. He said they had limited themselves largely to the Orlando Letelier case and had not commented in any great detail on matters which were currently under investigation by the Bureau and the Department of Justice. In response to my question, Daly said he expected that Jim Price, the agent in charge of the case, and he (Daly) would be the FBI representatives at the hearing.
